

HAZARDOUS DOMESTIC WASTES (HDW)

Hazardous domestic wastes (HDW) are everyday products that contain harmful matters. Therefore, you must NEITHER put them in household waste, recyclable matters or large and cumbersome items collections, NOR throw them in sink or sewers. To help you get rid of HDW, 15 municipal HDW deposit are available in the MRC des Laurentides and their access is free for residents.

Set up in spring 2008, the deposits allowed recovering more than 45 tons of wastes, which is 32% of all the HDW produced in the MRC des Laurentides. Hardwares also helped recovering more than 25 tons of used paint and oil. Nevertheless, since the objective is to recover 75% of HDW, we strongly encourage you to identify these products and to bring them to your local deposit. (See below for contact information).

ACCEPTED PRODUCTS	
All these products must be from residential origin exclusively and bring back in their original container.	
▪ cellular phone	▪ windshield washer liquid
▪ aerosol / spray	▪ paint, primer, solvents
